iCB Software Update

App Note Number: 274

Affected Products	iCB
Support Reference	N/A
Audience	Operations, Customers, Partners
Date	3rd July 2025
Supersede	269
Severity	Low – Software Upgrade

Background

iManager CloudBase (iCB) version 2.521 has been released to the Speakerbus Fast Track release stream to introduce the following product enhancements as detailed below.

Defect Resolved in 2.521

- Occasionally instant playback does not work (SB-8324).

Next Steps

iCB 2.521 may be used for server deployments that require customer or partner controlled operating systems using Red Hat© Enterprise Linux 8 or Oracle Linux 8. For other Red Hat© 8 derived variants please contact Speakerbus Global Customer Support.

iCB 2.521.1.0 requires a clean installation if upgrading from iCB 2.200.2.0 or earlier.

Please contact your regional Speakerbus account representative for guidance on how to obtain the software. Once the software has been downloaded, please follow the installation instructions in the accompanying iCB_Readme.xhtml file to install/upgrade your iCB server to 2.521.1.0.

If you have any questions regarding this communication, please contact Speakerbus Global Customer Support (https://www.speakerbus.com/helpdesk).

End of Application Note 274.
